

Dear Colleagues and Friends, we would like to cordially invite you to attend the

Joint meeting of the Czech and Austrian Head and Neck Cancer Cooperative Group

With participation of Slovak HNC Cooperative Group Preparatory Committee

Louka Monastery, Znojmo (Znaim) 7.- 8. June 2018

The goal of the joint meeting is to contribute to the development of scientific relations between our countries, to mutually exchange information about ongoing and future scientific projects regarding head and neck cancer. By the same time the meeting has an educational mission in discussing some of the very current problems of our discipline and giving young colleagues the opportunity to present in front of an international public.

Znojmo is a historical city in South Moravia not far from the frontiers between Czechia and Austria, about 90 km from Vienna and about 200 km from Prague. Louka Monastery was founded in 1190 and its simple rooms will form a dignified frame of the meeting.

We believe that the goals of the meeting can be achieved and that the historic premises of the Louka Monastery will provide an excellent environment for scientific exchange and discussions and by the same time for strengthening professional relationships and networking activities.

We are looking forward to meet you in Znojmo

Jan Klozar

President of the Czech Head and Neck
Cancer Cooperative Group (CHNCCG)

Dietmar Thurnher

General Secretary of the Austrian Head
and Neck Society (ATHNS)
