

Znojmo 2025

Proposed lectures:

- **Michael Hinni (Phoenix):** De-escalation therapy in oropharyngeal cancer patients
- **Michael Hinni (Phoenix):** Regenerative medicine in head and neck cancer
- **Jeppe Friborg (Copenhagen):** Online adaptive radiotherapy in head and neck cancer
- **René Leemans (Amsterdam):** Transoral Robotic Surgery in the Management of Unknown Primary Tumours
- **Heikki Irjala (Turku):** Follow-up protocol after treatment. What is reasonable?
- **Heikki Irjala (Turku):** Do we have molecular markers to safely de-escalate the treatment?
- **Ricard Simo (London):** Salvage functional laryngectomy
- **Ricard Simo (London):** Minimising complications in salvage surgery
- **Mario Fernandez (Madrid):** The Artificial larynx and the Nebola project: fundamentals for a comprehensive rehabilitation after total laryngectomy
- **Alaa Elfeki (Cairo):** Primary versus secondary Provox insertion after total laryngectomy
- **Alaa Elfeki (Cairo):** Risks of radioactive iodine therapy after surgery of thyroid malignancies
- **Petri Koivunen (Oulu):** TBD
- **Leif Back (Helsinki):** TBD
- **Cesare Piazza (Brescia):** TBD
- **Paolo Bossi (Milano):** TBD

EHNS Symposium

Treatment of head and neck cancer: complications and long term outcomes

- **René Leemans (Amsterdam):** Salvage Surgery: complications and outcomes
- **Mario Fernandez (Madrid):** Avoiding problems in Transoral Surgery
- **Christian Simon (Lausanne):** Robotic head and neck surgery: complications and outcomes
- **Wojciech Gokusinski (Poznan):** Complications in reconstructive Surgery
- **Sefik Hosal (Ankara):** Precision in treatment selection for HPV + oropharyngeal cancer to minimize toxicities
- **Jeppe Friborg (Copenhagen):** Non-surgical de-escalations strategies for HPV-pos OPSCC
